Introduction

(Keep limited to 1 or 2 slides)

- **In this chapter give introductory information about your minor project/seminar. The purpose of this section is to let reader know briefly about your work. Apart from introduction mention about need of taking this work, problem that you want to address, the statement of a problem and its relevance, the initial goals you had, etc. without going into details**

Literature Survey

(Keep limited to 1 or 2 slides)

- **While implementing any new idea or delivering a seminar on new technology, there is need to refer previous technical material available on this issue. You have to read books or technical papers available on your topic or idea. We have subscribed almost all standard journals in our library. Referring the technical material related to your topic you have to do literature survey.**

Literature Survey

- Here Mention clearly about source of information about your topic.
- If you are referring Electronics for you write like - YYYYZZZZ in EFY Issue number ---- Year--- Month--- stated that “ ”
- If you are referring a paper mention the name of author like – Ajay Bhoir in his paper presented/published in----- conference/journal, insisted on need to carry out study on”
- Summarize the literature that you have read. Rather than literally copying the texts that you have read, you should present your own interpretation of the theory. This will help you in developing your own thinking discipline and technical language. The last part of this section must contain a brief mention of the gaps in the literature and a justification for undertaking your seminar/minor project.

Current Status

- **Here you have to show the soft copy of material that you have collected like reports, papers or articles.**
- **Here you also describe your further planning to carry out rest of your study. You have to tell evaluators about how will you prepare report indicating which chapter will address which issue.**
